Pioneers in insurance approved locks systems.

Powerlock®

MAXIMUM SECURITY
PRODUCTS

PREMIUM CYLINDERS

The new Powerlock Pro® is the latest development in the world of premium cylinders. The cylinder is designed and crafted to fit in all Powerlock® maximum security products. The locking system offers a wide product range with cylinders that can all be operated with a single key.

The design and craftsmanship that goes into the creation of these cylinders ensures its functioning in even the most severe environmental conditions

We develop and design true craftsmanship locks for mobile applications.

OUR PRODUCTS

PADLOCKS

Our padlocks are designed for securing objects with a high value and a high risk of theft. The Powerlock® PL-700 is one of the worlds most toughest locks in the market. A stainless steel case with a hardened boron shackle makes our PL-700 one of the most durable padlocks on the market.

CONTAINER/TRAILER LOCKS

Our heavy cast steel container/trailer locks are an excellent solution to secure truck-trailers or shipping containers. The Powerlock® CTL-100 is the standard in container and trailer security. The CTL-100 is used across more than 80 countries.

OUTBOARD ENGINE LOCKS

Powerlock® is the market leader in securing outboard engines, and well known in the Dutch marine market. The Powerlock® BBM-I provides maximum security for all outboard engine up to 10 horsepower.

AND MUCH MORE

STAINLESS STEEL DESIGNER KEYS

Each Powerlock® key is crafted out of stainless steel in order to achieve a level of high durability, and being resistant to corosion.

POWERLOCK® KEY SYSTEMS

DESIGNER KEY

Each Powerlock® maximum security lock is included with the characteristic designer key. The origen of the key, can be traced back to the late 90's. Around this time, Powerlock® made its name with the infamous wheel clamp type Amsterdam®.

PROFILE

Every Powerlock® key is manufactured from the highest quality stainless steel. The unique key profile ensures a smooth operation and minimized wear.

PERSONAL CODE-CARDS

Every Powerlock® key comes with a personal code-card. This Powerlock code-card is used to identify the authenticity of the holder and the lock. The code card gives its holder autorisation to order duplicate keys from the Powerlock® certified key system.
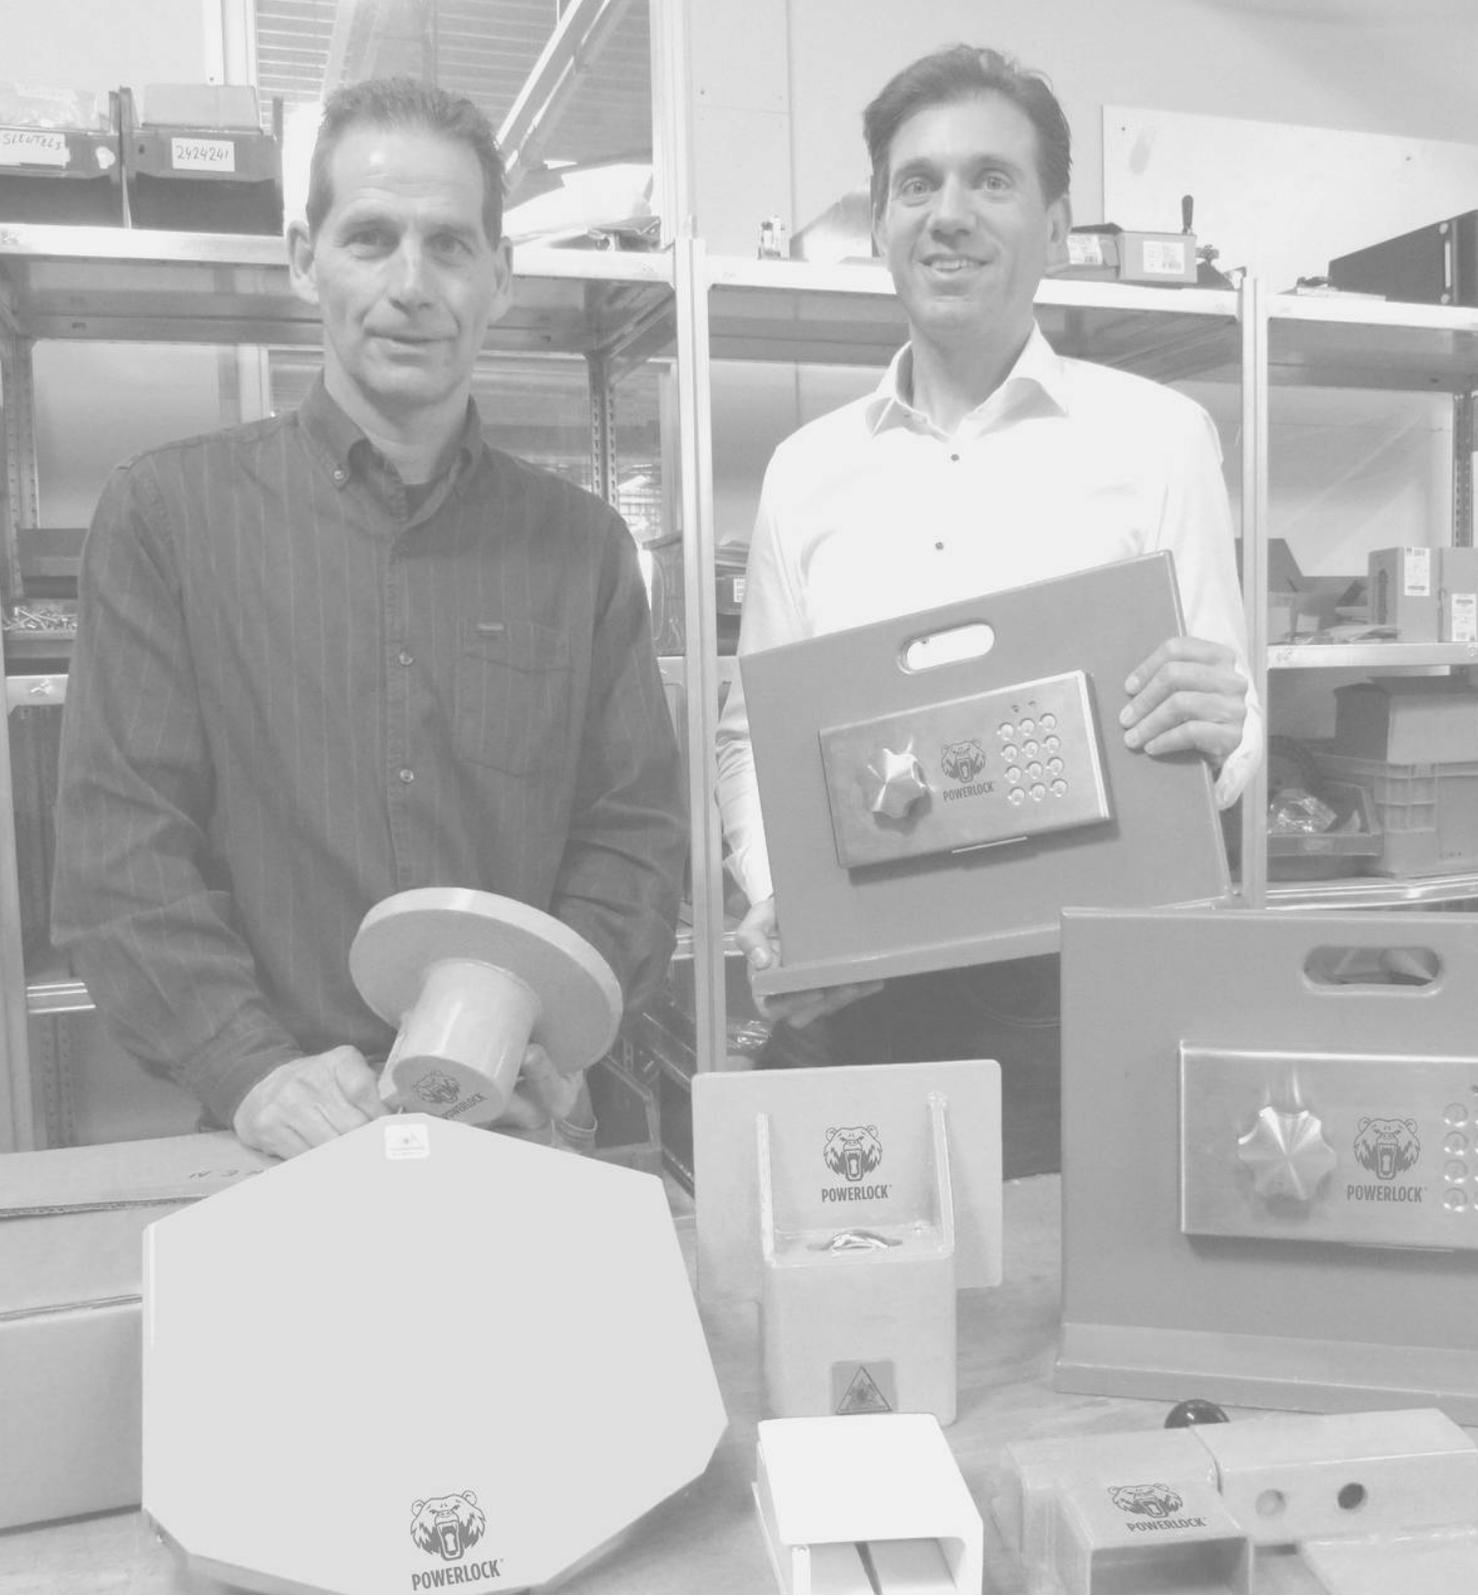

CORPORATE SOCIAL RESPONSIBILITY

JOB OPPORTUNITIES

At powerlock® we are committed to ensuring that all our employment policies and practices for staff are fair, products are made from sustainable materials and building durable relations with customers and suppliers is a priority.

The aim of equality in the workplace is to achieve broadly equal outcomes for men and women. Achieving this equality is important for workplaces and building durable relations

SUSTAINABLE MATERIALS

All our Powerlock® products are made from sustainable materials. Whether they are made from a durable stainless steel for the manufacturing of our designer keys, or a recycled plastic composition for the personal Powerlock® keycode cards.

At Powerlock®, we have a manufacturing goal of using a minimum of 95 percent sustainable materials in the process of raw material to finished product.

SHELTERED WORKSHOPS

As a part achieving our durable goals, a part of Powerlocks® products is assembled in local sheltered workshops.

CEO & FOUNDER POWERLOCK®

Powerlock develops and designs a unique range of anti-theft products for mobile applications. Our products are available for various applications such as: Boats, outboard motors, caravans, trailers, cars, trucks, motorcycles, mobile homes and many more.

MISSION STATEMENT

At Powerlock® our vision is to provide our costumers with premium and maximum security locks. Our locks provide a barrier for thiefs every day anywhere in the world.

VISION STATEMENT

The Powerlock® solutions are especially designed and produced to safeguard your high valued property and shipments.
